OFEK LEVI

FULLSTACK DEVELOPER

ABOUT ME

I am a versatile full-stack web developer with a primary focus on React and Node.js, combining technical proficiency with strong design sensibilities. Dedicated to creating visually appealing and seamlessly functional web applications. My passion for innovation and commitment to staying abreast of industry trends drive my continuous pursuit of excellence. Adept at merging design principles with advanced development skills. Bilingual in Hebrew and English.

WORK EXPERIENCE

- Fiverr & Upwork freelancer - Developed and delivered high-quality websites for diverse clients.
  Created responsive and mobile-friendly websites to ensure optimal user experiences across devices.
  (mostly in React and Node.js).

- Our Habitas company - I was a web developer in Our Habitas company.
  My responsibility was the maintenance and continuous improvement of the website, and crafting a hotel management platform tailored for Internal Operations Management, encompassing Inventory and procurement, maintenance requests, and expense management functionalities.
